AGAIN ON ITS MUSCLE.

The Big Muddy a Second Time Threatening Havoc and Destruction.

Since the rise reported in Monday afternoon's edition, of one foot and seven inches in the Missouri, the water has continued to steadily increase at the rate of three quarters of an inch an hour, and at 1 o'clock today it stood three feet and one inch above the height forty eight hours ago. This makes the rise eighteen feet and one inch above low water mark, and considerably above the high water mark of the previous seasons. During the night the water began to again run, in behind the Smeltz works, which necessitated transferring the material to higher buildings, and drowning the fire which had been started.

Letters were received by Mr. J. E. House, superintendent of the St. Paul and Sioux City railroad, from Mr. Brown, chief engineer at Sioux City, that the water had raised there over five feet during the night of the 17th, and was still coming rapidly up. The telegraph line is still down, and no further news of damage to the railroad track has been received. By the letter, it was stated that the track was all under water, with several wash-outs. No trains can run to St. Paul and travel is entirely blocked.

The latest dispatches at the Western Union Telegraph office indicate that the water is stationary at Sioux City and falling at Yankton.

Y. M. C. A. RECEPTION.

An Enjoyable Occasion at the Congregational Church.

The members of the Young Men's Christian Association in this city gave a pleasant reception in the parlors of the Congregational church last evening to L. D. Wishard, of New York City, college secretary of the International committee of the Y. M. C. A.; A. T. Hemmingway, general secretary of the Y. M. C. A. in Chicago; W. W. Van Arsdale, of Chicago, editor of The Watchman, the official organ of the association, and J. W. Doan, of Des Moines, Iowa.

At seven and a half o'clock the spacious parlors of the church were well filled, and the exercises began with W. W. Peet, president of the Omaha association, presiding. A song by the association quartet preceded prayer by Rev. Mr. Beane, pastor of the Eighteenth street M. E. church. Dr. Lohsenberg then gave a review of the history and work of the association here, in which he referred to the general secretary's report for the quarter ending March 31, 1881, in which the membership is placed at over 200.

The visitors were then called upon, and briefly responded. Mr. Hemmingway made general remarks of a congratulatory character, and dwelt upon the work which the associations in large cities are doing. A song by the trio composed of Miss Rustin, Mrs. Sherrill and Mrs. Squieres, added at this point much pleasure to the entertainment. Mr. Wishard then drew a graphic word picture of what the association here might do with a good building. Mr. Van Arsdale spoke of the earnestness exhibited by the young men in Nebraska in the good work, and Mr. Doan made some pleasing remarks in relation to the Y. M. C. A. convention recently held at Lincoln.

At the conclusion of the exercises refreshments were served, and the assemblage resolved into a sociable gathering of the most cordial character. The interest displayed speaks well for the Y. M. C. A. and its friends in Omaha.

"Sans Ceremonie"

The last reception of the season was given by the club bearing the above pleasing title at Standard hall last evening. Thirty-two couples participated in the enjoyment of the occasion. Music was furnished by Hoffman's orchestra. It was throughout an elegant affair and will be long remembered with pleasure by those who attended.

At Cruikshank's grand opening there was nothing attracted more attention than their splendid display of GENTS' FURNISHING GOODS.

This is comparatively a new department with them, but has grown with great rapidity, till it is now one of the most important in the House. Everything here is sold with the ordinary dry goods profits (not at tailors' prices), and the richest goods are shown at most moderate prices.

Gentlemen of ten express regret that they had not found the place before. They are now showing splendid lines of Neckties and Silk Handkerchiefs, and an immense stock of Hosiery of every kind and description, among which are the celebrated C. & S. Half Hose; also full lines of gaiters and merino underwear; also complete lines of Wilson Bros.' fancy shirts, their splendid unadorned shirt at \$1.25, and the new improvements. This shirt is absolutely unrivaled. Do not be deceived into buying shirts at higher prices, expecting to get better goods, for a better shirt cannot be obtained nor can a better fitting shirt be made.

Smashing an Awning.
A runaway team, composed of a gray and bay horse, created lively havoc with an awning in front of G. A. Hill & Co.'s store, on the corner of Corn and Twenty-first streets, yesterday morning. The props of the awning were cut out, and the entire structure came down. The team was caught on Eighteenth street, with the fragments of what had been a wagon clinging to their heels.

Base Ball.

A fully attended meeting of the Union Pacific Base Ball club was held at Hyde's office Monday. Active steps were taken toward the selection of a playing nine and the services of Mr. Charles Whitney as pitcher secured for the season. The nine, equipped and ready for work, will probably be put in the diamond next Saturday for a practice game. Sharp contests may be looked for between the two railroad headquarters during the coming summer months.

On motion the rules of the preceding council were adopted by the present council.

All the above appointments were confirmed.

Daniel P. Angell presented his bond as city marshal, which bore the names of John A. McShane and F. A. McShane as sureties.

The following communication from the water works company was read:
Hon. J. E. Boyd, Mayor of Omaha:
Dear Sir:—A large number of fences are from twelve to sixteen feet out from property lines, and the fences are in many places from eight to ten feet out from the property lines. The ordinance establish the curb line sixteen feet out from property lines.

The water works company specify on what corners hydrants are to be located, but do not specify the distance from property lines. The company request that the city engineer, by a large majority of the city council, should be authorized to order that just what distances from property lines they desire hydrants to be placed.

In many additions the streets are much narrower than in the city proper. We suppose that the curb lines in such additions will not be cut as far as in the wide streets, but we have no means of ascertaining definitely the intentions of the city in regard to such streets. We should like to see a specific action taken in regard to these matters as soon as possible, so as to obviate any misunderstanding in the future.

BURNING OUT.

An oil ketch, attached to the oil house of R. C. Steel & Johnson, on Ninth street, created an excitement yesterday afternoon by boiling over and igniting catching on fire. The truck and two engines appeared upon the scene in short order but their services were not required. A few shovels full of dirt extinguished the conflagration.
